WHO AM I?

I am a very curious guy, passionate about learning daily. I'm interested in life and the lessons I can learn from it. Attitudes like team-work, perseverance and passion define me as a person. Aptitudes are developed from that foundation onward. I value spending time with myself and get to know and shape who I want to become.

Bash

C/C++

Git

AWS

GNU/Linux

Java

Vim

Ruby

EXPERIENCE

2018 – Current
Full time

QA Engineer   **Wave Location Technologies**
My role is to ensure the quality of every app under the company's name. To accomplish this, I have implemented a end-to-end test automation framework. I also do manual testing.
```
Ruby / Bash / Jenkins / Linux / Gherkin / Appium
```

2017 – 2018
part time

Game developer   **Project Nyama**
Working as a Game developer with some friends from University. My role was to program the enemy's tracking and attack algorithms.
```
Unity / C#
```

EDUCATION

2014 – 2018

Bachelor's Degree   **U-TAD**
The Degree is very practically focused. This means I have had a hands on approach to everything I have learned here. My Bachelor's Degree Final Project was focused on an analysis of double authentication methods on GNU/Linux systems with a special focus on PAM

1998 – 2013

A-Levels   **The Lady Elizabeth School**
I went to this school when I was 3 years old and finished studying there at 17, when I went to University. This is a English School, meaning I have grown up with English around me constantly.

PUBLICACIONES

25-01-2019

Setup an automated testing server with Jenkins and AWS Device farm   **Faun - Medium**
Step by step configuration of a Jenkins, AWS - Device Fram CI server

01-12-2018

Leverage the power of open source and don't reinvent the wheel   **Hacker Noon - Medium**
How not to waste time reusing good open source

PERSONALITY

Currently

ISFP   **Myers and Briggs'**
I focus on the job at hand, always prioritising people relations first. I want everybody to feel secure and accepted. I tend to pause for a better answer. Self-improvement is always on my To-Do list. Less is more.

LANGUAGES

Spanish - native
Catalan - native
English - C1 - Cambridge

HOBBIES

I play around with GNU/Linux (Arch + i3) and configure my system to be more efficient. Whenever I need time for myself, I will go for a walk. This helps me organise my ideas. I also enjoy photography. I think of it as my creative expression. When I need a bit of an adrenaline rush, I will go for a ride with my bicicle.

OPEN SOURCE

I believe Software should be Open Source as it serves as a learning platform for aspiring developers as much as a community effort to break current boundaries and limitations. In our day and age, no commercial product would be feasible without relying on quality Open Source projects.
